# Our story

Our journey began over 85 years ago when Frank Dobson first started Dobsons in 1935, on the same Hertfordshire site that we remain on today. Originally a building company Dobsons has evolved over the years to become the home specialists of today and while many things have changed over the past 85 years what hasn't is our commitment to excellent customer service and high quality products.

Dobsons is now managed by the fourth generation of the Dobson family who continue to transform homes with unfailing attention to detail. From bespoke kitchens and bathrooms to glazed extensions, windows and doors, we have everything to make your house a beautiful home inside and out.

We take care of the complete project from design through to installation all expertly managed for a perfect seamless finish taking the stress and hassle away from you as part of our premium service.

We hope you enjoy this taster of our work and it gives you inspiration for your own project and we look forward to hearing from you in the near future.

## BATHROOMS

# Your new bathroom

A bathroom is the part of the home we go to feel refreshed and relaxed and at Dobsons we pride ourselves on creating a luxurious space that you can do just that.

Every family has a different list of desires for their perfect bathroom. Our designers will spend time with you finding out your individual style and how you will use your bathroom before creating a design that is right for you.

We can simply refresh and update an existing tired bathroom or we can redesign your existing layout to maximise functionality, taking down walls to create a larger area or perhaps creating a new room where there wasn't previously one. Whatever your need our designers provide the know-how to make it happen.

We are experienced in working with bathrooms of all shapes and sizes and understand how to overcome niches and unusual features in rooms. We also work on many home renovation projects and can design from your plans and work alongside your architect and builder to ensure your new bathrooms fit seamlessly into your overall plans.

We can undertake every aspect of your bathroom project, including all building services and all our installations are carried out to the highest standard, with every aspect project-managed by our team to take any stress and hassle away from you, providing you with a perfect seamless finish.

# Our products

To create the finest bathrooms we work alongside the leading brands in the industry. We are a proud Villeroy & Boch studio, known for their excellent porcelain sanitary ware and tiles. We also partner with Hansgrohe, Geberit, Waters Baths, On The Level wet room systems, Aqata shower enclosures and Keuco to name just a few.

Our experienced designers will be able to select the right products to suit your needs and your water system to give you the best showering and bathing experience. Whether this be a rain shower vs hand held or a steel vs an acrylic bath, we can discuss the pros and cons and help you make an informed choice.

We have a wide range of bathroom furniture options to choose from, modular wall hung vanity units, fitted furniture or even bespoke, hand-crafted cabinetry for a more personal touch.

When it comes to tiles we have a huge selection available to allow us to create stunning designs and interesting features. We also use corian and glass in our designs as an alternative wall covering where requested.

And for the finishing touches we have a stylish range of accessories, so you can choose the perfect toilet roll holder, robe hook and shower basket etc. to complement your scheme.

# Our services

We offer a complete range of bathroom services from family bathrooms, ensuites and cloakrooms to steam rooms, saunas and private swimming pool changing areas.

We can undertake complete barrier-free bathrooms in addition to making smaller scales changes to bathrooms for customers with reduced or decreasing levels of mobility. In these instances we would work around the current layout, replacing baths with walk-in showers, adding support bars, shower seats and combined bidet toilets.

In addition to the usual project services we offer, such as tiling, plastering, electrics and decorating, we can also advise on and install replacement boilers or new pressurised hot water systems as part of our full bathroom renovation.

And because we are not just a bathroom company, we can also supply and install new double glazed bathroom windows at the same time as the bathroom installation and design and install matching bedroom or dressing room furniture to complement your new ensuite.

Speak to our designers about our full range of services.

# Our showroom

Our Villeroy and Boch bathroom studio showcases the best in luxury bathing and showering.

Our stunning displays feature a range of bathroom room sets from wet rooms, to walk in showers, freestanding baths, cloakrooms and family bathrooms.

We have a wide variety of sanitary ware, shower enclosures, baths, furniture and brassware on display, including a plumbed-in bath which allows us to demonstrate the spray pattern and function of your chosen hand shower.

Our showroom provides many ideas and inspiration for your bathroom including examples of stunning porcelain tiles used to create different moods and features. We have a full range of tile samples for you peruse in a wide range of sizes, colours and textures.

Our experienced bathroom designers can guide you in the right direction to get you started with your project and help choose which products will be perfect for your new bespoke bathroom.

# What's next?...

## 3 SIMPLE STEPS TO A BEAUTIFUL HOME

### SHOWROOM

Book an appointment to visit our comprehensive and welcoming showroom, full of inspiration to turn your house into a beautiful home, with displays from across the Dobsons range showcasing our innovative products.

### DESIGN

One of our expert designers will then visit your home to talk through all your options and work with you to create a beautiful yet functional design, perfectly tailored to your needs and preferences.

### INSTALLATION

Our project-managed installations are then carried out by our experienced team, exceptionally well-mannered, tidy, punctual and a pleasure to have working in your home.
